# Learn the Signs. Act Early.

The journey of your child's early years includes many developmental milestones for how he or she plays, learns, speaks, and acts.

Look inside to learn what to look for in your child. Talk with your child's doctor about these milestones.

Not reaching these milestones, or reaching them much later than other children, could be a sign of a developmental delay.

# YOU KNOW YOUR CHILD BEST.

If you are concerned about your child's development, talk to the doctor. If you have concerns about your child's development here is who you can call for further support:

# Track Your Child's Developmental Milestones

For parents of children from birth to 5 years

Your child's early development is a journey. Use this map of milestones to know what to look for along the way.

This brochure developed and provided by

# Your Child's Early Development is a Journey

Check off the milestones your child has reached and share your child's progress with the doctor at every visit.

These are just a few of many important milestones to look for. For more complete checklists by age visit www.cdc.gov/ActEarly or call 1-800-CDC-INFO.
